Assistant Commissioner for Patents
Box Non-Fee Amendment
Washington, D.C. 20231

Sir:

PRELIMINARY AMENDMENT

Please amend the application as follows:

In the claims:

1. (amended) A patient monitoring system including the combination of:

a plurality of pneumatic pressure generators for generating pneumatic pulses, each generator being actuable by a patient, said plurality including at least one armable pneumatic generator;

conduit including a central control line joined to branch lines in a fluid conducting relation with said plurality of pneumatic generators; and

a pneumatic actuated switch acted upon by pneumatic pulses delivered by said central control line from any of said
